STORM.

The Atlantic Coast Submerged by Tidal Waves.

The Greatest Storm That Has Occurred in 20 Years.

Atlantic City Entirely Cut Off From the Land.

The Coney Island Railway Swept Away Completely.

Special to The Oakland Tribune by Western Associated Press.

WASHINGTON, September 10th.—The Hydrographic office has prepared a statement to the effect that the tidal waves along the coast of New Jersey and Long Island for the past few days have been caused by a hurricane coming up the coast from the West Indies. Disasters at sea are feared.

The necessity for telegraphic communication with the Bermudas and Nassau, that warnings to shipping may be given, is pointed out by this storm. This is a hurricane season and grave fears of disasters to shipping are entertained.

NEW YORK, September 9. In this city some piers were entirely covered by the tide. Some piers which are usually twelve feet above high water mark have had their decks licked by the angry waves.

The bay and rivers are exceedingly turbulent owing to the high winds.

Sailors say that this is the greatest flood that has occurred here in twenty years.

NEW YORK, September 10.—Incoming vessels are anxiously awaiting for news of the great storm at sea, which has been raging the past few days.

That the storm has been worse this year is made evident by the high tides and storm waves which have done such great damage along the coast. In this city cellars and first floors of buildings along the waterfront were all flooded this morning. Ferry boats are having great difficulty in getting into slips.

Reports showing that great damage has been done by the storm at the high tide last night all along the coast, are coming in; and as the tide this morning was higher than that of last night it is evident that an enormous amount of property has been destroyed along the New Jersey coast. Low beaches are submerged and railroad tracks badly injured. Thousands of spectators watched the surf this morning, which was the wildest and the highest known in years.

Atlantic City is completely cut off from the mainland, and many bathing houses are ground up into kindling wood. Several pavilions have been lifted bodily from their pilings and destroyed.

Reports from Coney Island show that this is the worst storm ever known there. All night long the waves dashed over the breakwater at Manhattan and Brighton Beach with a tremendous roar, and the marine railway between the two last places is completely swept away. This morning not a vestige was left of the esplanade in front of the Manhattan Hotel, and the tile floors in and out of the basement of the building. The concourse is swept away, and communication between the east and the west end is rendered impossible.

ALAMEDA.

Admission Day—Minor Offenses—Personal.

The Native Sons who went to San Jose report having had the most pleasant time they ever spent on an Admission Day.

A party of hunters left for the hills this morning in quest of quail. Among them were Oscar Rogers, W. F. Schulte, and H. F. Morris.

F. K. Krauth, editor of the *Encinal*, responded to the toast of welcome at the meeting of the editors of Central and Northern California in Sacramento last evening.

Admission Day was very quietly observed in this city. Most of the business houses were closed and a large portion of the younger population went to San Jose.

The old Young Men's Christian Association building will be used as a public hall when moved to its new location on Webb avenue, between Park and Everett streets.

Bids for the improvement of Pacific avenue will be opened at the meeting of the City Trustees tomorrow evening. It is very likely that there will be much competition for the contract, as the cost of the improvement will be in the neighborhood of $50,000.

John Adams of San Francisco came to Alameda yesterday and sought to celebrate Admission Day by getting gloriously drunk. He was taken into custody on the charge of disturbing the peace and was given five days in the County Jail to sober up in by Justice Byler.

F. Flores and his wife had a disagreement a few days ago and she skipped to San Jose. He thought that she went to the house of Mrs. Helen Sullivan on Pacific avenue, and going there he demanded to see her. He refused to believe Mrs. Sullivan when she stated that she was not harboring his wife, and he talked very freely to her. The result was that he was arrested for disturbing the peace and this morning he was sentenced by Justice Byler to serve ten days in the County Jail.

They Worked All Summer.

Hans Leinbeck has brought suit against Gus Millard to recover the sum of $397 50 for wages alleged to be due and owing. Leinbeck and a number of other workmen, who have assigned their claims to the plaintiff, worked all summer for Millard on his threshing machine, and assert that he has failed to pay them. They ask the court to declare their claims a lien upon the defendant's property.

THE WIND UP.

The Closing Races of the Golden Gate Fair.

After THE TRIBUNE went to press last evening the trotting and pacing races were concluded at the Oakland Trotting Park. In the second heat of the trotting race pools sold at $50 for Lorena, $15 for Mista, and $5 on Belle Grande. In the heat Mista led from the wire and was four lengths ahead of Lorena at the quarter post. Mista led all around and won by a length in 2:31, Lorena second and Frank third.

The third heat was a very rank one, all the horses behaving badly. Although in the lead clear around the circuit, Mista broke continually, and on the stretch was passed by Lorena, who won the heat and race. Time, 2:31.

The following is the summary.

Ben Harris' br. f. Lorena, by Jim Mulvenna, dam by Ethan Allan, Shaner.....1 2 1
L. J. Rose's b. f. Mista, by Alcazar, dam Mabel.....2 1 2
G. Valensin's br. f. Belle Grande, by Grandee, dam by Arthurton, Bustin.....3 3 3
Time—2:30¼—2:31—2:31.

The Pacing Race.

In the free for all pacing race in mile heats best two in three the entries were M. Daly's St. Patrick, B. C. Holly's Frank, T. H. Griffin's Little Hope and C. I. Hawe's Racquet.

Before the first heat pools opened at $50 on St. Patrick, $15 for Racquet and $17 for the field. In the heat Little Hope got off first and kept the lead to the quarter where St. Patrick worked up and passed him. Frank and Racquet dropping several lengths behind. Little Hope kept well up to the stretch where St Patrick went a length ahead and won in 2:20¾, Little Hope second and Frank third.

Before the second heat pools came down, St. Patrick going at $10, the field at $20, and Racquet went begging at $8. At the start St. Patrick took the lead from the wire, and won easily by a length from Racquet, Frank third. Time 2:22¼. Before the third heat St. Patrick jumped in the pool box to $50, and the field $31. After much scoring an even start was made, and the heat was won easily by St. Patrick, Frank getting in second and Racquet third. St. Patrick was given the race, Frank second money, and Racquet third.

The summary:

Marcus Daly's b. s. St. Patrick, by Volunteer, dam Young Scilne, Quinton.....1 1 1
B. C. Holly's b. g. Frank, by Nutwood, Holly.....3 4 2
Charles Havens, br. g. Racquet, entered, Brandon.....4 2 3
N. N. Griffin's b. g. Little Hope.....2 3 4
Time—2:20¾—2:23¼—2:20.

THE TROTTING RACE.

The last race of the day was a free for all trot for a purse of $400, in mile heats, best three in five.

The entries were: C. L. Clawson's Big Jim, John Goldsmith's Nina D., Green's Melrose, O'Connell's Perihelian, and Griffin's Patch Allen. Before the opening heat pools sold at $60 for Nina D., Melrose bringing $24, as second choice, and the field went at $21. The horses scored ten times before getting the word, but made a smooth start. At the quarter Nina D. was in the lead with Melrose close up for second place and the others bunched. On the stretch Melrose caught Nina and passed her by a length, going under the wire in 2:27. Nina second, Big Jim third.

Before the second heat was called up Nina D. sold for $50, Melrose brought $22, and the field went for $9. In the heat Perihelion led to the back stretch, where Nina passed him, only to give way at the turn to Melrose, who worked up under the whip and won by half a length, Perihelion second, and Big Jim third. Time, 2:28. The judges gave Big Jim second place and put Perihelion fifth for running.

It was quite dark when the the third heat was rung up and pools closed at $30 on Nina, $15 on Melrose and the field went at $5. In the heat Perihelion led from the wire to the quarter, but was passed by Nina D. who in turn gave up first place to Big Jim, who went like the wind under the wire, winning the heat in 2:25. Owing to the darkness the judges announced that the other heats would be finished at 11 o'clock this morning, and last night, owing to the uncertainty of the final results, pools were sold for high money in San Francisco.

Some Surprises Today.

There were not many people present this morning at the track to see the conclusion of yesterday's trotting race. But if it could have been known that a horse who got no better than second place in the three heats yesterday was to win three straight heats the crowd would probably have been larger.

Betting was quiet, but Nina sold as a favorite at $25, while Melrose brought $18 as second choice, and the field was sold at $12. In the first heat Patch Allen acted ugly, and was out of the race from the quarter pole, Nina D and Melrose had it hot for first place, and Nina got it, going under the wire in 2:2- with Melrose second, Big Jim third and Perihelion fourth, while Patch Allen was distanced. The second heat was a run around, Nina D started off first followed by Perihelion, Melrose and Jim, in the order named, and in this way they crossed the line in 2:20¼.

Perihilion did not enter in the third heat and the others started off evenly, Nina taking the lead on the turn and Jim going second. At the quarter pole Jim broke badly and Melrose rushed into second place. In this way the horses finished in 2:20¼. The race was given to Nina D. Melrose got second money and Big Jim third.

A Lucky Mining Venture.

Helena (Mont.) Letter.

The Helena assay office takes all good bullion that comes. It may be no more than a spoonful of dust from the man who is working with a shovel and wheelbarrow and a little sluiceway near the entrance to Yellowstone Park, or it may be the single consignment from the Spotted Horse mine in Fergus County, which yielded the owners of the mine $45,800. That was a thirty days' run of the Spotted Horse. Since then that mine has sent in several consignments which proved to be worth from $25,000 to $30,000. Spotted Horse has a short, but interesting, history. D. W. McAdow was in business at Billings. He crippled himself financially by advancing supplies to those who owned the mine. The property was put up at Sheriff's sale and McAdow bid it in to save himself. He took out $30,000 in thirty days, and recently sold to Helena men for $500,000 cash. Mr. McAdow is a member of the Constitutional Convention, and Mrs. McAdow is the head of the very persistent lobby which has been laboring to get woman suffrage in the Montana Constitution. Cashier Dembo says this Spotted Horse bullion is the finest that comes to the assay office. It is nearly as good as gold coin. It goes over 800 fine.

BUTCHERED.

"Jack the Ripper" Again Heard From in London.

Another Woman Found in Whitechapel Terribly Mangled.

The Head and Legs Severed From the Body.

The Police and Detectives Can Do Nothing.

Special to The Tribune by the Western Associated Press.

LONDON, September 10.—At 5:30 o'clock this morning the police found the body of a fallen woman lying at the corner of the railway arch on Cable street, Whitechapel.

An examination of the remains showed that the head and legs had been cut off and carried away, and the stomach ripped open and the intestines were lying on the ground.

A cordon of police instantly surrounded the spot, but no arrests were made.

Policemen pass this spot every fifteen minutes during the night, and those who were on duty last night say that they saw nothing suspicious.

The physicians who examined the body state that in their opinion it was a murder, and that the mutilation of the body must have occupied nearly an hour.

This murder is the worst of the whole series of Whitechapel murders.

LONDON, September 10.—The manner in which the limbs were severed from the body showed that the murderer possessed some surgical skill.

The woman was about 30 years old, clothing shabby, and she was evidently a spirit drinker.

The remains have not yet been identified.

The most intense excitement again prevails in Whitechapel, and crowds surround the mortuary establishment in Whitechapel in which the body lies.

Later details show that there was no blood on the ground where the body was found, nor was there any blood on the body. From this it is evident that the murder was committed in some other place and the body was subsequently deposited under the railway arch.

The trunk was nude and a torn and bloody chemisee was found near the body.

It is believed that the woman has been dead for two days.

EXTENDING THE UNION PACIFIC.

General Manager Kemble Says It Will be Built from Frisco.

OMAHA, September 10.—General Manager Kemble of the Union Pacific was asked today if there was any truth in the report that his road proposed building from Frisco, Utah, to a junction with the Southern Pacific at Mojave. "We are thinking very strongly of extending our Utah Central line further south in order to tap the Pioche mining district," said he, "but we will probably go south of the direct line from Frisco to Mojave, and the extension will be very gradual. I don't know exactly how soon work will commence. President Adams, who has been making a detailed inspection of the road, will be back in about ten days, and we will then form definite plans. Our chief energies, however, will be concentrated in Oregon and Washington Territory, and we will make a great many miles of new road there in the next few years."

THE WRECKED WILDWOOD.

A Portion of the Crew Arrive in San Francisco.

SAN FRANCISCO, September 10.—The barks Electra and Will M. Chase arrived here this morning from Alaska with part of the crew of the bark Wildwood, which was stranded in the Nuskagak river August 9th, with 105 barrels and 30,000 cases of salmon on board, for the Bristol Bay Canning Company. The Wildwood is a total wreck. Captain Colson and eleven men remained there to discharge the vessel, and the cargo may possibly be saved in a damaged condition.

San Francisco Markets.

SAN FRANCISCO, September 10.—Wheat steady: Buyer season, $1 40½; buyer '89, $1 35½. Barley neglected.

Chicago Markets.

CHICAGO, September 10.—Wheat, cash, 70½; October, 74¾; December, 78¼. Corn, firmer, Cash, 33½; October, 33 9-16; December, 33½.

REAL ESTATE.

Some Important Transfers Made in East Oakland.

E. W. Woodward, one of Oakland's leading real estate operators, has just made a transfer of plots 17 and 18 of the Lake View tract to Arthur D. Thompson for $22,000. This tract is located on the high bluff northeasterly from Tubbs Hotel, and affords one of the most sightly views to be found anywhere in the city of Oakland. This property is valuable and desirable now, but will be vastly more so when the proposed boulevard around Lake Merritt is completed. The view it affords is not only of the lake, but of Piedmont, the estuaries, Alameda, the foothills, and in fact the whole surrounding country. This transfer and the price is significant of the increasing estimation residence seekers are placing upon property in this locality.

IN CAMERA.

The Ladies of the Sheltering Home in Session.

"Oh, we are just delighted to have reporters come around. Will you take a seat outside, please?"

Thus was a TRIBUNE reporter greeted this morning by the President of the Board of Directors of the Woman's Sheltering Home.

"Can't I attend your meeting?" meekly asked the reporter.

"Oh, we could'nt think of such a thing. We never allow reporters to be present at our meetings."

The reporter was about to ask if Colonel Irish would be permitted in the inner circle, but his better nature struck him and he refrained from the cruel joke. There seems to be three great hulking shadows that cast a spell of sadness over the ladies of the Sheltering Home Trust, and these are: Colonel John P. Irish, the Chinese boot fund, and the TRIBUNE reporter. Either of these appears to be sufficient to make the good ladies feel very sorry that they spoke.

"Can I get the result of your meeting after you adjourn?" pursued the reporter.

"Certainly," replied the lady President. "Anything that we feel like giving you, and that we think will be of interest to the public you shall have—indeed you shall."

And then the lady disappeared behind a door, which was shut with a mighty slam.

THE METHODISTS

Ask That Dr. Dille be Continued as Pastor

Of the First Church for Another Year—Financial Reports—A Prosperous Church.

The open session of the Quarterly Conference of the First M. E. Church, held last night, was an occasion of unusual interest. The pastor presented his annual report, which showed all departments of church activity in a most flourishing condition. The principal items of numerical statistics are as follows:

Received into church fellowship during the year:

By letter, 130; upon probation, ninety-eight; from probation, forty; dismissed by letter during the year, seventy-two, twenty-two of whom went to the new Thirty-fourth Street Church; net gain of full members during the two years of Dr. Dille's pastorate, 212; of probationers, 60.

The Sunday School numbers 151 with an average attendance of 340. At the close of the session a very flattering set of resolutions were presented by O. J. Backus, and adopted by a unanimous vote, asking for Dr. Dille's return to his charge for another year.

Steps were also taken looking to the employment of an assistant pastor, as the rapid growth of the church demands it. The total income of the church for the year from all sources was $12,048 57; of this amount $3000 was for various benevolences, $3395 for ministerial support, $ 000 for church improvements, and the balance for current expenses.

The church gives $ 50 for missions, home and foreign, $50 for church extension, $41 for the Bible cause, and $137 50 for Christian education. The year has been by far the most prosperous in the church's history.

SCALED LIKE A SERPENT.

A Policeman's Strange Malady from an Australian Snake-Bite.

Philadelphia Press.

Policeman Edward Dawson, of the Fourth District, yesterday visited the Zoological Gardens, not to see the animals, but to seek medical advice. On Officer Dawson's hand between the second and third fingers is a little open wound, no larger than a pin head, that has remained so since 1866, when he was bitten by a black snake in Australia. He wanted to find out whether the keepers of the Zoo had any particular specific for the bite of a snake and told a remarkable story.

Dawson passed his boyhood in Berwick Township, Gibbs' Land, Province of Victoria. When a boy of fifteen years, playing in the bush, he was bitten. He ran home and his mother sucked the wound to extract the venom. His father, who was a high police officer, sent for Prof. Halford, of the Melbourne Hospital, who injected ammonia into the lad's wrist, and no ill effects immediately followed from the bite.

But for years Dawson has suffered from a most perplexing malady, which he cannot but attribute to the snake's bite. As soon as Spring weather comes the palms of his hands develop a scaly eruption which looks like the under part of a snake's body, and a like trouble appears in streaks on the legs below the knees and on the feet. The very puncture in the wrist, where Prof. Alford injected the ammonia, always shows a dark circle around it. The eruption is very painful, and Policeman Dawson has difficulty in gripping his club when it is necessary to have it ready in the discharge of his duty.

Dawson has consulted eminent physicians in this country and Australia, and has even traveled to India to see if native knowledge of venomous serpents could find a remedy for his case. He says he has spent more than he ever made in trying to get cured. His visit to the Zoo yesterday was prompted by a review in *The Sunday Press* of a magazine article by Dr. S. Weir Mitchell on snakes and their venom. He asked Head Keeper Byrne to show him the snakes, and among the collection he found one that he said was of the same species as the one which bit him. The snake he picked out is called the indigo snake and comes from South America. It is about seven feet long, and being a new arrival at the Zoo, little has been learned of its habits and nature. Dawson showed Keeper Byrne the swelling of his hands and their snake-like palms.

They looked "raw" and inflamed, and the scaly surface was singularly like a snake's belly.

A Miraculous Berry.

At a recent meeting of the Linnean society in England a most extraordinary fruit was exhibited, the so-called "miraculous berry" of West Africa, belonging to the sapotaceæ. Covered externally with a soft, sweet pulp, it imparts to the palate a sensation which renders it possible to partake of sour substances, and even of tartaric acid, lime juice, and vinegar, and to give them a flavor of absolute sweetness.—Exchange.

THE LONDON STRIKE.

John Burns is Ashamed of American Organized Labor.

LONDON, September 10.—A meeting of the striking workmen was held at Tower Hill today. Fillet, one of the leaders, said that he believed that the mediation of Cardinal Manning would result in an early settlement of the strike. John Burns said that the workmen of America had forwarded sentiment and sympathy enough to encircle the globe, but they had not sent a single cent to relieve the wants of their fellow workmen. He was ashamed of the organized workmen of America.

The people of Melbourne have sent £10,000 to the London strikers.

AT A FOREST FIRE.

A Man Drowned While Diverting Water to Extinguish It.

NEVADA CITY, September 10.—Frank Souchet, an old resident of North Bloomfield was accidentally killed near that town this morning while assisting to extinguish a forest fire. Water had been diverted from a ditch into a ravine to cut off the flames, when a quantity of debris accumulated in front of the stream, forming a dam. As Souchet started to remove the obstruction it gave way and he was overwhelmed and drowned.

A FIRE AT LEMOORE.

Twenty-five Thousand Dollars Worth of Property Destroyed.

LEMOORE, Cal., September 10.—A fire here this morning destroyed about $25,000 worth of property. Among the buildings burned were the furniture warerooms of E. A. Wheeler, G. E. Shores' real estate office, Lovelace's drugstore, Kregenbagen's building, Weil and Allen's saloon and barber shop and L. E. Winsett's lodging house. Origin of fire unknown.

A BANK PRESIDENT CONVICTED.

The Bank Suspended and There Was a Deficit of $100,000.

MANHATTAN, Kan., September 10.—William R. Higinbotham, President of the Blue Valley Bank, was this morning convicted of grand larceny. The case was an outgrowth of the suspension of Higinbotham's bank last January, when the ledger showed a deficit of $100,000.

A DRUNKEN ROW.

A Rancher Kills a Peon Near Santa Monica Canyon.

LOS ANGELES, September 10.—A Mexican laborer named Martinez was killed last night near Santa Monica canyon, in a drunken quarrel. A rancher named Juan Pima has been arrested as the murderer.

A Colored Man Kills Another and Is Shot Resisting Arrest.

BALTIMORE, September 10.—John Kolbi was killed with a brick by William Chester, a colored man, last night. Subsequently Chester resisted arrest and was shot by a policeman.

MOMENTARILY EXPECTED.

Congressman S. S. Cox Slowly Dying in New York City.

NEW YORK, September 9th.—S. S. Cox is very much worse this morning, and death is expected at any moment.

NEW YORK, Sept. 10th.—A message was sent at 10:30 from the house saying that S. S. Cox was sinking fast.

NEW YORK, Sept. 10th.—Congressman Cox's physicians held a consultation this morning and found him worse, but there is no reason to fear immediate death unless heart failure recurs. His condition is critical, however.

MINE SUPERINTENDENT ROBBED

Knocked From His Horse and $5000 in Gold Coin Taken.

DAGGETT, Cal., September 10.—J. L. Patterson, superintendent of the Rundover mine, was knocked off his horse between here and Calico and robbed of $5000 in gold coin, which he had got from the express office to pay off the miners. The robber took the horse and started in the direction of Hawley station. Several people were sent out after him.

NEAGLE'S TRIAL.

The Federal and State Courts Each Claim the Right.

SAN FRANCISCO, September 10th.—Argument was commenced in United States Circuit Court today on the subject of the jurisdiction of the Federal Court in the case of Deputy Marshal Neagle. Attorney-General Johnson opened the argument on behalf of the State and Attorney Mesick followed for the Federal authorities.

A BOOMLAND RAILROAD.

The Los Angeles and Pacific in the Hands of a Receiver.

LOS ANGELES, September 10.—Superior Judge Shaw today appointed W. T. Spillman receiver of the Los Angeles and Pacific Railway. The action was caused by notes which were overdue and held by Spillman and the Bank of California. Other heavy debts are pressing.

Riddleberger on the Stump.

WOODSTOCK, Va., Sept. 10th.—Ex-Senator Riddleberger took the stump yesterday for the Democratic ticket.

THE TIME CARD.

The Old Sacramento Local Train Resumes Operations.

WHY THE TIME CARD WAS CHANGED.

The Livermore Train Wrecked at Sunol This Morning—A Peculiar Accident—News.

There was a reason for making that new time card that went into effect yesterday. That reason was to help the new straight extension front engines out of a difficulty. The new straight stack extension engines could not do the work required of them on the old card, and so the card had to be changed in order that the new engines might not be asked to do what was an impossibility.

The Southern Pacific Company was taken with an economical fit a few months ago, and decided to dispense with one of the Sacramento local trains and make the overland trains do the work. This looked very nice on the time card, but the company soon found that it did not work as nice as it looked.

The long trains of the overlands compelled heavy engines, and when these trains had to stop at every little way station on the route they soon found that to put the time on the time card and to make the time on the road were two different things. The big trains and the big engines couldn't do it. They lost time in stopping and starting and time and again the overland came in late.

The conductors swore. The engineers swore. The brakemen swore. The train dispatchers swore. The company swore. Still the trains came in late.

Then they laid the blame on the train men. But it wasn't the fault of the train men.

Then they laid it to the engines, and the company came to the conclusion that the big straight stack extension front engines did not do the work that they were wanted for. Perhaps they were blamed for many things that was the fault of something else, but certain it was that the new engines could not draw the heavy overland trains, and make frequent stops and make the time on the card. They could take a freight train of thirty cars and on a long pull could do better than any engine the company had, but when they tried to make many stops and do it quickly they lost time, and showed many defects. They were built for a heavy passenger service between Oakland and Sacramento, and couldn't do the work.

But this was not wholly the fault of the engines. It was partially the fault of the new time card that gave them work that was almost impossible to do. The company at last recognized this and the obnoxious time card has been changed.

That was why the card was changed.

It is said that the Southern Pacific Company will take a lot of their worn out useless engines and will break them up and build a series of new engines especially for this work, and the new engines will then be relegated to the freight service.

A JONAH AND A HOODOO.

Why the Livermore Train Was Wrecked at Sunol.

"Somebody is a Hoodoo." That is what Train Dispatcher Sibley said when the Livermore local that is due at 8:15 at the pier was wrecked at Sunol this morning. The Livermore train was drawn by engine 103, in charge of Engineer Bradley, and when the train was running at a high rate of speed about half a mile east of Sunol, a tire on one of the rear driving wheels snapped and broke, and at last accounts the engine was still in the ditch. The accident is a dangerous one and is very rare. The train was delayed for three hours until another engine could be sent for and the wrecking train could clear the track. Fortunately no one was injured.

This is the second time within a few weeks that this same engine has been wrecked in almost the same place, and once before when she was pulling a special officer's car from Sacramento she broke a side rod. A few weeks ago she tried to run through the depot into the bay and the boys say she is a Jonah.

HEADLIGHT FLASHES.

Some Little Rumors About The Union Pacific.

The Rumorist says that the Union Pacific is to be built to Los Angeles and San Diego.

Engine 1005 on the Oregon express, jumped the track at Sixteenth street station on Sunday.

Sidney Dillon's little trip around California is regarded as meaning railroad extension.

It is said that the Union Pacific will obtain an entrance into Los Angeles and San Diego over the lines of the Santa Fe in Southern California, and that this arrangement will help both roads. The Union Pacific is accredited with a desire to open some large coal fields in Nevada.

A prominent railroad man in Boston, the Santa Fe headquarters, is quoted as saying: "I am ready now to predict that within four months, or before January 1, 1890, the Atchison system will be owned and operated by Jay Gould and C. P. Huntington. This is not a guess nor a snap judgment, but is simply based on certain facts which I know. The arrangement will be brought about by the large banking houses of Drexel, Morgan & Co., Brown Brothers & Co., Kidder, Peabody & Co. and Baring Brothers.

Celebrating the Birthday.

Considering that a very large part of the population was out of town yesterday the drunk crop was fair. Twenty-four names were on the calendar of the Police Court this morning with "drunk" stamped opposite their names in bright green.

IS HE A MAJOR?

Not a Georgia Major, but of Age.

THE STORY OF A WOMAN BETRAYED.

Mary Keating's Sad Story—Dead in the Insane Asylum—Doubt About Her Son's Age.

A somewhat romantic story was brought to light in Judge Greene's department of the Superior Court this morning when the application of James Keating for letters of administration on the estate of his mother, Mary Keating, deceased, was heard by his Honor. Attorney Metcalf represented the petitioner, who is a young man who claims to be 21 years of age. When the case was called a San Francisco attorney informed the court that he appeared in the case as *amicus curiæ* and was looking out for the interests of Mrs. Annie Bean, an aunt of the boy, who asserts that her nephew is not 21 years of age and, therefore, is not entitled to letters of administration. He did not ask to have anyone appointed, but simply appeared in the case in order that the court might not be imposed upon. Twenty years ago Mary Keating was a handsome girl residing with her parents in Brooklyn, N. Y. She became infatuated with a young man named James Keating, and a child was born to them. It is claimed by the attorney for the aunt that no legal marriage was ever solemnized between the couple, but the attorney for the boy asserts that he can produce proofs of the marriage. But however that may be, the boy would certainly inherit his mother's estate whether the marriage was legal or not. Keating proved to be a base deceiver, for after the child was born he deserted the woman he professed to love, leaving her alone in the world with her infant to care for. She struggled against fate and finally in 1877 she came to California, bringing with her the child, whom she named James Keating. They located in Oakland and Mrs. Keating, for that was the name by which she was known, commenced the struggle for bread. She accumulated some little property, but never seemed to be happy, her only interest in life being centered in her child. For years she brooded over her troubles until at last her reason gave way and she was committed to the Napa Insane Asylum, where she died a few weeks since. The boy was left alone in the world, without friends, and he was sent to the Orphan Asylum at San Rafael, where he remained for some time. A few months since he left the asylum and went to San Francisco, where he found employment as a clerk in a grocery store where he is now at work. When on the witness stand this morning he related that he had never seen his father, and had heard very little about him. He had been told by his mother that he had a father, but further than this the mother did not tell him the secret of her life. He did not know of course when he was born, and could only state that he is 21 years of age, from reckoning up from the date on which his mother informed him that he was born. A number of relatives of the boy were called as witnesses and testified that they knew he has not as yet attained his majority. Judge Greene was not satisfied as to the young man's age, so he continued the case for one month in order to allow Attorney Metcalf time to ascertain if he could secure the records of the Catholic Church at Brooklyn where Keating was baptized in order to show that he has reached his majority. Mrs. Keating left some valuable real estate in this county.

THE LAST RITES.

Mrs. Kate Stone's Funeral in San Leandro.

The funeral of Mrs. Kate Stone, that took place in San Leandro yesterday, was largely attended, and was a very impressive service. It took place at her residence and her large circle of friends from all parts of the county made it a point to attend. The large, elegant casket in which her remains were placed was covered with beautiful floral tributes bestowed by friends, and the room in which the service took place was liberally hung with the sweet emblems of peace and rest. The remains were followed to their last long resting place by a large number of friends and the casket was borne by the following well known prominent citizens of San Leandro who officiated as pall-bearers: R. S. Farrelly, S. Huff, G. H. Payne, Dr. DuBois, R. Jones, W. H. Sears, C. E. Palmer and C. H. Gray.

AMUSEMENTS.

The last performance of the *Parlor Match* will be given at the Oakland Theater this evening. Tomorrow evening and Thursday evening the best farce comedy on the stage, *The City Directory*, will be played. The principal parts are taken by Charlie Reed, the funniest of funny men; Ignacio Martinetti, the dancer, and May Yohe, the beautiful dark haired girl, whose Persian costume has given her a reputation throughout the country.

Poet of The Day.

Rev. Charles L. Miel was the poet of the day at the celebration of the California Pioneers yesterday at Camp Taylor. His poem was entitled "Cloude Goe," and was written in dialect. The Oakland City Band furnished the music for the occasion.

No One Knows Him.

The body now in the Morgue, found in the bay near Long Wharf on Sunday, has not yet been identified.

MULDOON MADE FAMOUS.

Fat Men and Ambitious Athletes Want to Be Made Like Sullivan.

New York World.

There has been one very ludicrous aftermath in the Sullivan-Kilrain fight. A dozen or more paunchy old fellows of fifty and thereabouts are just crazy to go up to Muldoon's farm and astonish the countryside by prancing up and down the hills in "sweaters." Just imagine ten or twelve substantial New Yorkers who have grown gross, for years on innumerable birds and bottles going up to Belfast and becoming as active and skittish as they were thirty years ago! But it is cold, sober fact. Muldoon's fame as a trainer has spread the country over, and has certainly "struck in" as far as New York is concerned.

Several elderly members of the New York Athletic Club and of kindred organizations find that their girth is increasing daily despite all the Turkish baths and the dieting they can stand. Nothing wounds the vanity of the average clubman so much as to be referred to by young women as "that fat old gentleman," and the story of how the gross and flabby Boston slugger was reduced from 250 pounds of adipose to 210 pounds of hard meat and muscle has resulted in Muldoon being flooded with applications to try his hand in the same direction on peaceable citizens. It is just possible that he may consent to make this decidedly novel experiment, although not at once.

"I want a good rest," Muldoon said to a *World* reporter the other day, "for I believe I deserve it. My work with Sullivan was very arduous. I had to break up my family and turn everything topsy-turvy to properly accommodate him, and I would have to do it all over again if these gentlemen want to go through the same course of treatment. Many of the methods I employed were entirely new and, as the result has shown, thoroughly effective. It is possible to take hold of any man, no matter how fat he may be, and bring him down to a healthy, muscular condition—provided, of course, that he possesses the vitality and is not incurably weakened through a fast life."

"What do you think of the idea, anyhow?"

"A very good one," was the reply, "but I am not prepared to consider it just now. After I get a little ease and rest I may undertake the job."

Notwithstanding Muldoon's refusal to enter into the scheme before cooler weather, a self-formed class of six has been collected, and by September 1 you may look for reports of the nimble manner in which these gay old boys skip the rope, chop firewood and make themselves generally ridiculous.

The Best Advertising.

The most efficient advertising in behalf of Hood's Sarsaparilla is that which comes from the medicine itself. That is, those who are cured by it, speak to friends suffering similarly, who in turn derive benefit and urge others to try this successful medicine. Thus the circle of its popularity is rapidly widening from this cause alone, and more and more are becoming enthusiastic in behalf of Hood's Sarsaparilla as it actually demonstrates its absolute merit. All that is asked for Hood's Sarsaparilla is that it be given a fair trial. If you need a good blood purifier, or building up medicine, try Hood's Sarsaparilla.

Repairing a Roadway.

Work on the Twelfth street dam will be commenced as soon as the official grade is established by the city engineer. When that part of Twelfth street is macadamized and repaired it will afford a better opportunity to the people of Oakland to visit the meat market of M. Y. Stewart at 511 East Twelfth street, where the finest meat in the city is sold.

The New Directory.

The work for compiling the Oakland, Alameda and Berkeley city directory for 1889-90 is now in progress.

To avoid, as far as possible, omissions from the new directory, we would respectfully request all residents who have been absent from the city during the past two months, and have now returned, to send their names, business address and residence to the Oakland office of the directory at Hardy's book store.

All business changes, changes of residence, etc., will receive prompt attention by addressing

LANE & BAXTER,
Hardy's book store, 961 Broadway.

The Count and the Sports.

Count Valensin is in town this week attending the races, where his stables are represented by some of his best horses. Some of the bloods about town have been very much impressed with the Count's dress. He was never known to wear the same suit of clothes twice in one week, and when the aforesaid sports heard this they at once called on O'Conner, the merchant tailor, at 1019 Broadway, and gave him their order. O'Conner would not have been thus honored if he were not the best tailor in town.

When at a loss to know what to have for a dessert at dinner, order a quart or more of Lehnhardt's delicious ice cream, delivered without extra charge to all parts of the city. Lehnhardt's fine confectionery, 471 Fourteenth st., next door to Postoffice.

Army Surgeons' Experience.

Army surgeons during the late war found chronic diarrhoea one of the most obstinate diseases they had to treat. Thousands of cases proved fatal, and many soldiers suffering from the disease were pronounced incurable, and discharged from the service. Chamberlain's Colic, Cholera and Diarrhoea Remedy was not known at that time. It has proved to be one of the grandest discoveries ever made in the history of medical practice. It has been used all over the West for years, and many chronic cases cured after being treated by the most eminent physicians, and at enormous expense. It is pleasant and safe, and never fails. Sold by Kirkland & Trowbridge, 973 Broadway.

He Knows His Business.

Proper care and selection of meats is equally important with cooking. Not all butchers know how to attend to these important matters. Customers of T. J. Crowley, proprietor of the Eastern Market, 1561 New Broadway, between Twenty-first and Twenty-second streets, appreciate his attention and say that from him they get only the very best meats, stall fed beef, veal, mutton, lamb, and pork, and also the choicest hams, corned beef, salt pork, sausages, etc.

To the Public.

I wish to announce to my friends and the public in general that I opened my new store at 867 Washington street, with a full line of household supplies, Monday, August 12th.

Respectfully,
R. WISE.

The dancing school started last Saturday. Professor Monckton has charge of the music and Professor Huddy the dancing.

The Normal scholars began work this week, and the Misses M. Robinson, Emmy Smith, Maggie Wales, and Carrie Overacker have gone to San Jose.

Last Thursday was a day of mishaps. While driving to Centerville Mrs. Cole's horse stumbled and fell, cutting his knees badly, and breaking the harness and buggy shaft. Mrs. Rupert Rockwell tripped on a piece of hose, spraining her ankle quite severely; and Carlyle Cameron managed to drop a plank on his foot so as to bruise it, causing it to swell and pain him badly.

Lorin.

Thomas Wood arrived home Saturday evening.

Mr. Harmon will put up several new cottages before winter.

Charley Harmon is down with an attack of pneumonia being confined to his bed.

Anson Lambert raffled off a $125 shotgun today. Every ticket for the affair was disposed of.

The Lorin and Paradise Clubs played ball today. The scorer is yet busy counting up the runs.

Oscar Ames's little boy is suffering from an attack of erysipelas. He is under the doctor's care.

Miss Geneva Shaw is suffering with a severe cold, causing her to take a few days' vacation from college.

Agitation has commenced for a Fire Company meeting, which will probably be called for next Tuesday week.

It has been reported that the flooring for the new school house will run out before the building can be completed.

The chairs for the church which were subscribed for a week ago Sunday evening, have been purchased and placed in the building.

A party was given by the Donaldson sisters Thursday evening and was greatly enjoyed by those present in singing, dancing, and games.

Misses Hattie and Geneva Shaw entertained a number of their friends Saturday evening at their parents' residence, on the corner of King and Harmon streets. An excellent musical programme was rendered. There were present: Misses H. and G. Shaw, Miss Lulu Ringer, Miss Dell Bracket, Miss Cora Goodsell of Oakland, and Messrs. Congdon, Chipman, and Fisk of Berkeley, and A. W. Dudgeon and A. B. Taynton of Lorin.

New To-day.

HERE is an advertisement of Ivory Soap where they recommend it for toilet purposes. I thought it was a laundry soap.

It is, but it is so much better than the ordinary toilet soap that I use it for the bath altogether. Its floating properties are a great advantage, and after soaping yourself, all you have to do is to take a dip and the lather will disappear, leaving your skin as clean and fresh as can be.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Electrical Power.

THE OAKLAND

Electric Light and Motor

COMPANY

Is now prepared to furnish electric motors from one quarter horse power up to twelve horse power, to any locality within the central business portion of the city of Oakland

This power is available for printing presses, operating pumps, manufactories, for elevators, ice cream freezers, meat choppers, and, in fact, for any purpose for which power may be used. No firemen or engineer needed. Absolute immunity from coal dust, boiler explosion, fire risk, and other nuisances of steam plant. No noise or bad smell as with gas engines. Occupies small space. No investment to user, as the Company furnishes motor and attendance.

Parties contracting with this Company can rely upon regular service, as it has any amount of horse power that is used only at night, and is therefore a reserve for day service.

Off With the Dance.

The great question of religion in the public schools came up the other day in Creston School district in a rather unexpected manner. The school building had just been finished and some of the people made preparations to celebrate its completion by a house-warming ball, but they were ruled out of order by opponents of dancing, who did not want the building thus desecrated. The would-be dancers got even by securing the prohibition of religious meetings in the schoolhouse, and the edifice is to be devoted exclusively to the public schools. Now here is a people who can neither be virtuous in their chosen way, nor yet have their cakes and ale. We suppose it will be admitted that dancing is wicked, and in fact we have a recent vote of the State Senate of Georgia, which furnishes authority on this point. The speech of Senator McCarty presumably a scion of the chivalry of the South) on a motion forbidding dancing at the celebration of the completion of the State Capitol, is worth quoting, in part, because of the light it throws on this interesting subject. Among other things, he said:

Since this has been agitated letters have come to me from strangers, asking that the Senate of Georgia commit itself not to the ball. It has come from Christian people. It is the strength of the churches that is exerted in this land to prevent dancing. Every church in the land stands up against it. The issue was tried in a church in Atlanta years ago, and great confusion resulted from it. I am not prepared to say that a great many elegant people do not dance, but when you go down to the solid church people of Georgia they don't approve of it. Why should we turn the Capitol over to these frivolities?

Naturally the motion was adopted and neither the "elegant people" of Atlanta nor of Creston can have the floor. It is an interesting fact of history that the most corrupt period in the life of England—that of the Restoration—was also the most prolific of blue laws.

IT is so rarely in Sacramento that they have a night when it is possible to sleep that the following enthusiastic outburst may be forgiven the excellent Barwick, the excitable clerk of the weather for that town:

Ah! but wasn't the temperature last night a dandy, and didn't old Morpheus get in his work in fine style in the way of recuperating tired nature, after a ten days' spell of unsleepable weather, for of such are the climatic features in this, our beautiful and homelike valley city? If such weather continues during the State Fair, it will be hard to tell what will be the remarks of outsiders who visit us at that particular period of the year and then go home and place our lovely city and climate on a par with Hades or Sheol. Their names are legion and should be suppressed.

There is no rest for the wicked.

THOSE excellent people who believe they have a mission to make straight the way of the world by their private rule should be delighted with the will of Dr. H. A. Deprenes, late of San Francisco, who left 4000 francs to a French society devoted to arguing mankind out of the use of tobacco. It is an interesting calculation how great will be the effect of the discharge of 4000 francs worth of argument, and it is reasonable to inquire for the information of intending investors if 8000 francs worth might reasonably be expected to do twice as much good?

THE Alameda *Argus* says that the plan advocated by a writer in the Livermore *Herald* of boring a large number of small artesian wells in close proximity in order to obtain water in sufficient quantity for the water supply of cities, was tried by the Artesian Company of Alameda some years ago and found a failure, possibly because of the sandy nature of the soil. The wells clogged with sand and the water was slightly brackish, showing that surface water made its way in.

THE wagon tongues talked very loud yesterday and the Colonels are on top. We believe they will stay there, but we would like to see them play in Oakland. Consider the moral support they would get in their home town. It there is anything they want that they don't see let them ask for it.

THIS age seems peculiarly fertile in expedients for the disposal of the dead even although this would seem a wasted field of ingenuity. The latest and perhaps the most remarkable of these is the plan of a Denver man who proposes to freeze the dead body in water, take the block of ice in which the dead body has been frozen and carry it to the north and deposit it on the shores of one of the Arctic seas. He says that he has already made some favorable progress, and that an English syndicate is considering the establishment of an international cemetery on the shores of Baffin's Bay, where he says that future generations may go to find the faces of their ancestors of the nineteenth century as natural as life. A New York company wants to make a regular business of desiccating the dead, the condensed remains to be kept on deposit. Others would burn us up and throw our ashes to the winds and waves, while here is a man who would have us wait the judgment day in thrilling regions of thick ribbed ice, but after all the simple plan, the return to the bosom of the Great Mother, seems to hold its own indifferently well.

A RECENT report of the Massachusetts Bureau of Labor statistics gives some interesting figures showing the degree to which the exercise of the franchise is neglected in that State. The census of 1885 showed 442,646 voters in the State, of whom 343,885 were native and 98,750 were naturalized voters. At the November election last year 344,448 votes were cast, showing that very nearly one-quarter of the voters did not vote at a Presidential election. This is not peculiar to Massachusetts. The election returns show that in all New England only 63 per cent of the voting population appeared at the polls last November to vote for a President. At the West the proportion of electors who neglect to vote is small, and it is difficult to account for the indifference shown in the East. As usual, it is proposed to pass a law making the exercise of the franchise a duty on the favorite plan of making good citizens by act of the Legislature.

THE Sacramento *Bee*, apologizing in advance for the saturnalia of the State fair, heads its account of the preparations "No Donnybrook," and then goes on to tell how the dives are in full blast and the town full of gamblers thus:

These dens are peopled by as worthless a rabble as ever congregated. By a common understanding, as it were, rascals from San Diego to Siskiyou drift hitherward and naturally find refuge in the dives of lower K street.

The *Bee* tells how "everything went" last year, and is fain to confess that it looks as if the same thing would happen this year. Here is a sort of philosophy with which a remonstrance against law breaking is met:

"A man on his vacation hunting after fun don't care for law when it stands in the way of innocent amusement. If you want to keep people out of town just stick to the business of forcing the laws of that kind."

Stop thief!

THE boys of Grand Rapids, Mich., are having a glorious time. The town authorities offered a bounty for the killing of English sparrows, and up to date boys have slaughtered over 10,000 of the pests. In addition the boys have filled a horse with bird shot, punctured the leg of one of their number with the same, and put out the eye of another. What a benevolent government!

Mr. Watterson in a Gloomy Mood.
Louisville Courier-Journal.

Perhaps we may safely say that the mind of every great man is shadowed by melancholy. Greatness is not an easy triumph. toil, suffering, and fear darken the path which leads to fame; the final victory scarce compensates for that which was endured in achieving it; the recollection of early trial saddens and softens later success; often the most ardent spirit would hesitate and turn back were it not for the consuming desire to excel which impels the toiler onward, and never permits his weary brain to more than briefly flag in its task. When his endeavor is accomplished will he forget what he has suffered? Can success, fame, glory obliterate the pangs of doubt he once felt?

She Has Come to Stay.
Irvington Express.

Quite a widespread report is afloat to the effect that we have sold out the *Express*. It is not true. We have brought our knitting and propose to stay right here and attend to business until we have made the *Express* one of the best and most popular papers in Alameda county, and when we have done this, why, then, we will—stay right along and continue to knit. Certainly we couldn't find a better place to stay than right here in Washington township.

A Pioneer Wagon.
Willows Journal.

Among the articles offered at the auction sale of the estate of the late A. G. Glenn was a wagon with which Dr. Glenn crossed the plains in 1849, which was originally built in Paris, Mo., at a cost of about $35. After experiencing the vicissitudes of forty years of frontier and farm life, the same venerable relic realized nearly the original cost of construction—something over $30.

The Carpenters' Union.

The carpenters turned out 200 strong at the weekly meeting of their union last night, and fifteen new members were initiated. Delegates were present from the Amalgamated Society of Carpenters and Joiners of San Francisco for the purpose of being recognized by the Oakland union. No definite action was taken in the matter, however. The members of the union were invited to attend a ball to be given by the Painters' Union in Cavalry Hall on Friday evening next. Several revisions were suggested in the proposed new by-laws of the Federated Trades that were submitted for approval.

"The Queen of Song."

Miss Flora Batson, the colored, "crowned queen of song," will entertain an audience at Hamilton Hall this evening. The lady's fame as a singer has gone before her, as is evidenced by the advance sale of seats. The papers of New York and Philadelphia speak of her in the highest terms of praise. The flexibility of her voice is said to be something remarkable, covering a range over all the cadences between a high tenor and a murmuring soprano.

THE FORWARD MOVEMENT.

Miss Moore's Lecture Last Night.

A large audience gathered last night in the First Congregational Church to hear Miss Henrietta Moore in her second lecture. Mrs. E. H. Wiley led the song service and rendered well a temperance solo. Rev. Dr. Gray offered a fervent invocation. Mrs. R. R. Johnston introduced Miss Moore very gracefully as one of the ablest national speakers.

The lady outlined the forward movement of the temperance forces along the line of prohibition. She showed the utter fallacy of high license as it is endorsed by the liquor dealers, and quoted Metz & Iler, the leading brewer and distiller of Omaha, as saying, "High license aids the business and is an effectual bar to prohibition." She pleaded hard against high license and said Omaha from legalizing the liquor traffic has descended to the shameful depths of licensing prostitution and collects $24,000 per year from abandonned women, and turns it, with the saloon license, into the school fund. Shame on a city that educates its children on blood money. The price is disgrace.

Her plea for suffrage for woman was earnest, and produced applause.

Miss Moore speaks tonight in the East Oakland Baptist Church, tomorrow afternoon in the Thirty-fourth street Methodist Church, tomorrow night in the First Methodist Church, 2:30 Thursday afternoon in the Chester Street Methodist Church, Thursday night in the First Baptist Church, Friday night at First Presbyterian Church, and Saturday night at Christian Church.

The Bible in the Schools.

EDITOR TRIBUNE: It is said with good reason that the Hebrews were always ready to die for the law, but never would live up to it. Yet had any of the many Jewish sects pleaded that the Scripture, in all its purity of diction and inapproachable grandeur, should not be taught in public places of instruction or worship and be supplanted by one of the innumerable deductions of private or sectarian interpretations (which comprise the Talmud, as well as all the respective views of Jewish sects), that organization would have been driven out of the land, duly anathemized and delivered over to the tender mercies of the 109th Psalm. It requires far more than ordinary conceit to present our own productions as superior to words that shall not pass away. All desire in that direction is of the flesh, the world and the devil. Nor is it difficult to trace all religious bitterness, warfare, and sure defeat of the Christian cause to human efforts to improve on teachings and example of our Savior.

The desire may be promoted by the best possible intent. The consciousness of our ability to deduct infallible and infallibly worded tenets of faith and duty, worship and ethics from the accepted gospel, may be overwhelmingly convincing. The testimony of our experience, and divine support and blessings showered upon such may be unquestionable. But who cannot comprehend precept and love of Jesus shall comprehend precept and love our own?

No intelligent Christian this day but will believe *His own words* in preference to aught other authority. The gospel is and must be its own defense against all manner of corruption and hypocrisy preached in the name of Christ. It judges all assumption, arrogance and self-exhaltation in churches as well as individuals. The Christian nor pagan world can afford to accept any other gospel for its salvation or guidance. Not to this or that ecclesiastical organization, but to Christ Himself the soul must be governed, it saved to life eternal.

Gospel text in creed, catechisms and sermons, shine like diamonds among more or less muddy waters, that shall pass away and be forgotten, when His words of life be fully understood and appreciated. Let them be preached, taught and *practiced* everywhere. This is the duty of all churches. If *their* gospels differ from His, let them not be heard.

Please, brother, do not set your judgment over and above the Lord, as to what is meat and drink, bread and wine for His creatures. Eat your *own* until you get weary thereof, and desire the heavenly. JOHN C. KASTNER.

Oakland, September 10, 1889.

Berkeley.

Special trains were run on the local line yesterday.

A boy was arrested for jumping off the local train while in motion. He was allowed to return home to procure bail. Judge little fined him $5.

A tramp was arrested yesterday morning by Deputy Constable Baker. He was brought before Judge Little who gave him one hour to get out of town, with a promise of ten years in San Quentin should he ever return. The vag was somewhat frightened evidently, for he started on a dog trot for Contra Costa.

A colored gentleman hailing from San Francisco visited this town yesterday to take a look at a lot which he purchased on Saturday at the auction of the Daley tract held in San Francisco. He was the happy owner of a lot 25 feet by 100 feet, for which he had paid $57 75. Great was his chagrin on finding that his property was situated on a ledge of rock. The lot was situated in the vicinity of Captain Thomas's home, and had a slant of about seventy-five feet to the 100 feet. During the day upwards of about twenty people came over from Oakland and San Francisco, who had been treated in the same way. The property was divided into about 140 or 150 lots, 90 per cent of which lie on the side of a very steep and rugged hillside. All purchasers were obliged to make a deposit of $10, after which they were given ten days to search title, etc.

West Berkeley.

The flag floated at full mast over the Town Hall yesterday.

George Schmidt will open his real estate office in the East End next Monday.

George Schmidt and Charles Speare returned from San Jose last evening, where they have been with the Native Sons of the Golden West since last Saturday.

The Police Court calendar is clear, and has been for some time. From August 1st last to September 3d the judge and constables were not called upon to act in their official capacity.

John Everding purchased 30,000 sacks of damaged wheat at San Pablo after the fire for $1600. He has been offered $1 per sack, but intends to use the wheat in his starch factory.

The cocaine fiend, who was arrested in East Berkeley last week for petty larceny, tried to get some of the desired article of Mr. Rutledge the same day. The druggist flatly refused him, at which he departed for East Berkeley where he was to a certain extent successful. He was sentenced to sixty days in the County Jail for stealing the medicine of druggist Merrill, and was taken to the County Jail and from thence to the hospital.

Children Cry for Pitcher's Castoria.

Very Risky Indeed.

To tamper with symptoms indicative of growing kidney disorder; to neglect for a brief time needful stimulation of the renal organs when their inactivity points, as it always and unmistakably does, to their eventual permanent disease, is certainly very risky indeed. This is however, a risk that many persons perceptibly drifting into Bright's disease, diabetes, catarrh of the bladder, &c., constantly incur. So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diuretic, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than its efficacy for the prevention of serious renal disease. The unmedicated excitants of commerce, no matter how pure, bear injuriously upon the kidneys, react prejudicially upon the kidneys when inactive. The Bitters subdues malaria, constipation and rheumatism.

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to **Ayer's Sarsaparilla.**

Frequent confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk out with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Eight years ago a cancer came on my lower lip. It took off my under lip from one side to the other, and down to my chin. I had it treated by burning, and I got so weak that I did not think that I could stand it much longer. After much suffering I discarded all other treatment, and began taking Swift's Specific, and the cancer soon began to heal, and in a short time it was completely healed and I was entirely well. It is now over three years since I got well, and there has been no sign of any return of the disease. I know it was cancer and I know it was cured alone by S. S. S.

Second Session of the Annual Meeting.

MRS. BLAKE'S LEAFLET DISCLAIMED.

Reports of Work Done—Resolutions Adopted—Convention Delegates Elected.

The second session of the annual meeting of the Woman's Christian Temperance Union convened yesterday afternoon in the first Methodist Church. Mrs. R. R. Johnston presided. Mrs. E. H. Wiley and Mrs. Bentley led a spiritual song service. Mrs. Shanklin, the Treasurer, reported $178 80 received and all but 40 cents disbursed in various avenues of temperance work. Mrs. Johnston retired from the chair and Mrs. H. H. Havens, the Vice President, took it during the election of officers. By unanimous vote the following officers were re-elected: Mrs. R. R. Johnston, President; Mrs. H. H. Havens, Vice President; Mrs. Shanklin, Treasurer; Mrs. Negus, Corresponding Secretary. Mrs. L. R. Webster sent in her resignation, which was regretfully accepted, and Mrs. S. C. Borland was unanimously elected to fill the vacancy. Mrs. Johnston made a good speech upon taking the chair for the second year, and solemnly pledged herself to most earnestly work against the liquor traffic.

The next order of business was the reports of superintendents. Mrs. Judge Chamberlain, Finance, said that, as auditor of the Treasurer's book and of the Superintendent of Juvenile work, and the cold figures fairly shone with light. The great good done by the patient work of Mrs. Shanklin and Mrs. Borland were not in those books, and only God knows of it. The wondrous influence of the money spent in the cadet fund in the pledging of young men and boys against liquor, tobacco, and profanity can never be measured. Mrs. Chamberlain then reported the finance from the coffee house, which is constantly aiding the temperance cause. She rendered thanks to the First Congregational, First Baptist and the Thirty fourth Street Methodist churches for generous collections. Mrs. Johnston reported the Legislative department. Mrs. S. C. Sanford, the Superintendent, being absent, saying that 60,000 names were gathered by the patient work of the women of the State upon the petitions of the Sunday law which were presented to the Legislature last winter, and a Senator moved that the enacting clause be stricken out and in five seconds the year's work was rendered of no account. I then knew that we would never get a Sunday law except by woman's ballot.

Dr. Annie Miller, Superintendent of Heredity, reported her class in this important work and urged a greater interest for the ensuing year.

Scientific Temperance Instruction in the Public Schools was well represented by Mrs. Dr. Bentley who heartily praised the work of Dr. Carrie F. Young, who has issued an admirable leaflet urging the kindly co-operation of the teachers throughout Alameda county in thoroughly teaching temperance. To the cost of this the Oakland Union contributed a good sum. Mrs. Johnson praised the leaflet as one of the best she ever saw, and Amador county has already sent for quantities of them.

Mrs. S. C. Borland, Superintendent of Cadet work, began her report by thanking the Ninth street coffee house for financial support. Oakland has five companies of cadets, flourishing grandly. Mrs. Borland organized last week a loyal temperance legion in the Bethany mission. She asked an assistant for the coming year. Mrs. Johnston highly complimented Mrs. Borland for her untiring work.

Mrs. E. S. Cameron reported much earnest work done for Sabbath observance, especially in the labor of securing signatures to the petitions for the Sunday rest bill. She spoke admiringly of Dr. Crafts' able efforts in making temperance and Sabbath observance sentiment in his recent meetings in Oakland. As the Field Secretary of the Sabbath Alliance he organized a branch in San Francisco in which Oakland is well represented by Woman's Christian Temperance Union ladies and others.

Mrs. Mathews, Superintendent of Literature, reported $14 expended in 18,562 pages of temperance matter and distributed in various boxes in the railway stations and public library. She also stated that large numbers of the *Youth's Companion* and all kinds of religious papers had been distributed in the prisons. Several copies of the *Constitutional Prohibitionist* had been sent in circulation. Mrs. Mathews requests the donation of religious papers after subscribers have read them.

M. G. C. Edholm, the energetic Superintendent of Press work reported as follows: Since being honored last December with the Superintendency of the Press of the Oakland Woman's Christian Temperance Union, and as official reporter for the State, I have written about 200 columns of original matter, filling Woman's Christian Temperance Union column in the Oakland TRIBUNE, *Enquirer*, and *Western Christian Union*, and reports and correspondence for the *Pharos*, San Francisco *Chronicle*, *Examiner*, *Call* and *Alta*. The San Jose *Times*, the *Christian Advocate*, *Occident*, *Herald of Truth*, *Cairn*, *Signal*, *Pacific*, *Truth*, *Prohibitionist Voice*, Berkeley *Advocate*, *Herald*, *Illustrated Pacific States*, *Rural Press*, and *Mining News*. Also through the kindness of Messrs. Palmer & Rey have secured the insertion of temperance items taken from the National *Bulletin*, edited by Miss Mary Henry, of Evanston, Ill., in 120 State papers. I wish most earnestly to publicly thank the editors of these papers for their generosity in giving space to the Woman's Christian Temperance Union work.

Mrs. I. M. Johnson, Superintendent of Unfermented wine, said she had distributed many leaflets on the subject and written letters of inquiry to pastors and found that very few used the fermented beverage. In England nearly 2000 churches use unfermented wine at communion. The sentiment is steadily growing.

Mrs. Dr. Southard being absent Dr. Van Kirk, County Superintendent of Young Woman's work, reported progress in enlisting the earnest efforts of the girls in the temperance cause. The Oakland Y's under Miss Rosamond Johnston and East Oakland Y's under Miss Julia Wilson, and the North Oakland Y's are all doing good work. Parlor meetings were found to be most effective in producing temperance sentiment, presided over by Mrs. F. D. Browne. Several receptions and teas had been given during the year with great success.

Dr. Sa-yon-na Clerc gave a fine showing for French work. She has distributed 500 French Bibles, thirty New Testaments, 600 Chinese Testaments, 10,000 French, English, and Chinese tracts; has held seventy-four cottage prayer meetings on Second and Third streets. Among the many converts was one saloon keeper. All the large expense of bibles and literature has been generously given by Dr. Clerc.

Mrs. E. P. Stevens, State Superintendent of Foreign work, said this was the best report of the State.

Social purity, in the absence of Mrs. Coggswell, was reported by M. G. C. Edholm, who referred to the donation party given at Rescue Home under the Salvation Army, at which the White Ribboners brought food, clothing, and furniture to the amount of $150.

Dr. Van Kirk, Superintendent of Mother's meetings, told well of the good results of the weekly social held for poor mothers and children at 377 Tenth street. Temperance and religion is inculcated, and a lunch is then given. Dr. Van Kirk gives her medical services free of charge. She also holds a Mother's meeting for talking of hygeine and heredity at her parlors the second Tuesday of every month.

Miss Sherman, Superintendent of Franchise, reported that a History of Woman Suffrage was in the Oakland and Berkeley libraries. Many copies of the Boston *Woman's Journal* are circulated, and thousands of tracts distributed. Mrs. Negus is also working untiringly in this department, and both ladies spend much money for woman suffrage. The grand work done for woman's ballot before the State Legislature which would have accomplished the reform but for Senator William's was graphically recapitulated.

Mrs. Bartlett reported great good done by the Gospel Temperance Home on Fourteenth and Franklin streets, and through the kind ministrations of Mr. and Mrs. Cooke between thirty and forty men have been redeemed from drink.

Mrs. R. R. Johnston reported the Sunday afternoon Gospel Temperance meeting as productive of great good in pledge signing and aiding men to quit the drink habit.

Mrs. E. H. Wiley, Superintendent of Music, told of her work in singing freely at Gospel Temperance meetings, and at all other times. Her beautiful voice has always been consecrated to temperance.

Mrs. P. H. Templeton gave a grand report for the Ninth street coffee house, which does a business of $16,805 annually, and during the last year has given $808 90 to temperance work. This is probably the most successful coffee house in the United States.

Mrs. Negus made a short report on narcotics, referring to the analysis of cigarettes and the petitions being circulated against their sale.

Mrs H. H. Havens read the following resolutions:

Resolved, That the meeting of the Oakland Temperance Union during the coming year be conducted according to the strict parliamentary ruling, using Roberts' Rules of Order as a guide.

Resolved, That in view of the all-powerful influence for good or evil exerted by our young women, we urge the organization of the W. C. T. U. wherever possible, to the end that their influence may tell for God and the right, believing as we do that in their hands largely lies the solution of the problem of temperance and social purity.

WHEREAS, We hail with joy all organizations working up to the immediate abolishment of the saloons; therefore

Resolved, That we heartily co-operate with the Anti-Saloon Alliance, giving them our united influence, sympathy, and support

Resolved, That we heartily endorse our State organ, the *Pharos*, and that we extend our cordial thanks to the able editor, Mrs. Mary Frank Browne, and we give to it our aid and encouragement in every possible way, and that we urge every member of the Union to subscribe for and circulate this valuable paper.

Resolved, That we ask the pastors of this city to urge the Christian men in their congregations to "inquire prayerfully, 'Is there any other evil scathe which we vote to be countered in the work of destruction with the liquor traffic?'"

WHEREAS, It is to the shame and detriment of our State that we have no Sabbath law, and

WHEREAS, The 50,000 saloons of the state are the greatest foes of the Sabbath, as well as of humanity, therefore

Resolved, We hereby pledge ourselves to make every possible effort to secure a State Sabbath law that, if executed, will forever close those infamous dens of iniquity that now defy both God and man.

WHEREAS, Believing that one of the strong pillars of our organization is the Department of Scientific Temperance Instruction and by which we are teaching the children today the baneful effects of alcohol and narcotics upon the system that they may carry the influence of our instruction into the next century, therefore

Resolved, That our Superintendent of Scientific Temperance Instruction be requested to see that this State law be strictly enforced.

WHEREAS, The Woman's Christian Temperance Union of Oakland believes that the weight of our influence, together with our prayers and our votes, should be in the direct line of the prohibition of the liquor traffic, and have so declared ourselves and

WHEREAS, A leaflet entitled "In Union There Is Strength" has been sent out, apparently in the spirit of peace and good will, but practically an arraignment not only of our State but our National Union therefore,

Resolved, That we disclaim all responsibility for it and like literature, regarding it as misleading in its tendency, and that we hereby declare ourselves, as heretofore, standing unchangeably upon the ground that the supreme purpose of our society is the abolition of the liquor traffic, and to all persons or parties who are loyal to the same object and who, "in the name of God and home and native land" are willing to devote, if necessary, their lives, their fortunes and their sacred honor to this holy cause, we pledge our continued prayers and co-operation.

Resolved, That we request our State President, Mrs. R. R. Johnston, at her earliest convenience, to prepare and publish a leaflet, which shall truly set forth the spirit and aims of our union.

Mrs. Blake the author of the leaflet, explained that she had not at all intended to misrepresent the Woman's Christian Temperance Union and as her name was signed she supposed all would understand she alone was responsible for it.

After her explanation the following resolution was passed in great kindness and tenderness:

Resolved, That in sending forth this leaflet so contrary to our views the discourtesy to the State Executive Board was entirely unintentional.

Resolved, That we request any sister who is to send any leaflet through the State to first submit it for endorsement to the State executive.

Mrs. Johnston made a spirited speech for the Prohibition party which was cheered.

The following were then nominated delegates to the State Convention to be held next month: Mrs. I. M. Johnston Mrs. O. B. Adams, Mrs. Darrow, Mrs. S. J. H. Hildebrand, Mrs. E. H. Burbank, Mrs. Major Robinson, Mrs. D. S. Sherman, Mrs. M. K. Blake and Mrs. Wiley. The following were nominated as alternates: Mrs. L. A. Gunn, Mrs. L. A. Balch, Mrs. Dick, Mrs. Templeton, Mrs. Eddy, Mrs. Bartlett, Mrs. Wiley and Mrs. Curtiss.

The Convention then adjourned by singing "Temperance Doxology."

THE YOUTH'S DIRECTORY.

Pleasant Picnic and Reunion in Badger's Park Yesterday.

The Youth's Directory of San Francisco and its many friends celebrated Admission Day yesterday with a pleasant reunion in Badger's Park, East Oakland. This was the first occasion on which those connected with and interested in that splendid society of home missionary work have had the opportunity of meeting and becoming acquainted, and the event was especially pleasant on that account. The attendance was very large, and included several members of the Catholic clergy under whose care, really, is most of the society's good work. Dancing, prize games, baseball and a splendid programme of literary exercises made up the day's pleasure. Hon. S. M. Shortridge delivered an oration on "The Day We Celebrate," during which he spoke highly of the work and success of the Directory.

Dr. M. C. O'Toole.

The Young Ireland Parliamentary Club of San Francisco have appointed a committee to make arrangements for a reception to Dr. M. C. O'Toole of Berkeley on his return from Ireland on the 20th instant.

He Saved My Life.

Some 18 months ago my health began to fail until I was confined to my bed. Some of the best medical skill of San Francisco treated me for enlargement of the liver. I failed so rapidly that my relations were summonsed to my bedside. When in that condition, and through the influence of Captain Fletcher's family of Oakland, Doctor Bluett of that city was telegraphed for, and the result was most favorable, as the Doctor diagnosed my case as chronic enlargement of the stomach. Without asking any questions he gave me a perfect history of my disease from the beginning down to that date, June 18, 1889. The treatment was begun and I felt a great change inside of six hours. The second day I sat up, and inside of a week I resumed my work as bookkeeper for Gillman & Danforth's Coffee House.

I am now enjoying splendid health.

UTOPIA.

Dr. Bowen on "The Ideal Republic."

WHEN EVERYBODY WILL BE HAPPY.

Forces at Work—Money Scarce—The Trusts—Railroad Strikes—National Control.

Dr. D. V. Bowen's lecture on "The Ideal Republic," delivered last night before the Nationalist Club in Hamilton Hall, was not very largely attended, but those who did go listened to an interesting discourse. Miss Maria Walsh, President of the club, introduced the speaker as the minister of the gospel of Nationalism, remarking that although they did not have many ministers preaching their gospel, it was nevertheless a gospel, and they were proud of its ministers.

Dr. Bowen said that although what he proposed to speak about was called now the ideal republic, the time was not far distant when it would be the real republic. It would be a republic where the narrow and greedy principle of competition would be supplanted by the broad and generous principle of association; where monopoly nurtured in the interest of individual gain would give place to co-operation; where there shall be no drudgery in society; no scramble for bread; where the fields and harvests of plenty would dispel all fear for the morrow; where education shall become universal, enveloping every faculty and power of the mind and body and assisting every worthy ambition; in short, where all society shall be united in one grand co-operation, and women shall labor in the field side by side with men, enjoying the same rights and opportunities and reaping an equal share of the fruits of their labor.

The evidences of Christian civilization now are, said he, grand and wonderful libraries, magnificent churches, wealthy banking institutions, powerful corporations; but the same glance that beholds them sees also lurking in the dark corners of these great libraries the most deplorable ignorance; opposite the stately churches are gloomy and threatening prisons; in the shadow of the wealthy banks hover the gaunt forms of hunger and want, and within the distinguished clutches of the powerful monopoly is the calloused, scarred, stripe ridden slave. In this grand, proud, boasted Christian civilization society is reeking with crime, the streets are full of tramps, by-places swarm with vice because it is better rewarded than virtue, and the strong and mighty are taking from the poor and lowly the very heritage of life.

Read history, implored the speaker. These are precisely the same forces that destroyed the ancient civilizations. Our present political parties talk of reform, but it is only a deceitful guise. Their sole aim is to perpetuate their power for personal gains, and swallow up the illgotten spoils of a corrupt government. The people are robbed to feed these political buzzards, but are yet powerless to protect themselves. There is a great scarcity of money; what has become of it? If some omnipotent arm, fired with the might of right could shatter the coffers that unpaid slavery and oppression have filled, the streets would flow with plenty. The Nation has given to six railroad companies within the recollection of the last generation a territory equal to the area of Great Britain and Ireland. The Standard Oil Company, starting with a capital stock of $1,000,000, has paid a million a month in dividends, and piled up a capital of $30,000,000, all of which is the result of individual combination and monopoly, and making the poor pay double, treble and quadruple for the simplest article of domestic consumption. The same is true of the sugar trust, and it will soon be equal in wealth and power to the oil trust. Its profits last year were $1,000,000, and yet, just to satisfy its own greed it recently raised the price of that staple so as to increase the profits $5,000,000.

This, said the speaker, is nothing less than commercial highway robbery, and there is no inherent difference between the commercial highwayman and any other highwayman. What, then, in the eyes of justice should he not be treated the same.

"We must awaken the people to the fact that new light has fallen on the social problem. Suppose we petition the National Government to take the Postoffice out of politics and give it to the people, and let competency and good behavior decide the tenure of office. And why not in the same way ask the nation to control the coal supply?"

The oft occurring railroad strikes, though! Dr. Bowen, and the consequent disruption to all traffic is a strong argument in favor of putting our railroads under national control. As now managed the national highways are all made to subserve individual interests, and are only incidentally put to the public good.

The nationalization of the industrial and commercial world will mean the total annihilation of the present baneful system of middlemen. Commission merchants and all sorts of agencies will disappear, and the great system of co-operation that takes their place will distribute from producer to consumer direct, and relieve the latter from the burden of paying from two to a half dozen prices for everything used.

The ideal republic, indeed, will help everyone to develop that which he is best fitted for, and deprive no one of the bounties of self-help. Work then will not be a tribute to physical necessity but a glad response to the freedom of inclination.

In the ideal republic the new order of things will develop the new political machinery. All laws will have to be submitted to the people, and the framing of them will be entrusted to competent hands. The people, however, will decide whether they shall prevail or not. Every man will have something to say as to who shall be his superior, and the great army of children will be relieved from the burdensome necessity of being breadwinners.

The present all absorbing problem of bread will not prevail in this land of wealth and plenty, where labor is allowed, undisturbed, to receive what it has honestly produced. There will then be no incentive to crime, because crime cannot accomplish as much as honest work. There will be no incentive to seek power, because power grants no advantage or inequality.

"We are called anti-church people," said the doctor, "but it is a mistake. All Christian churches are united in this grand work, and Christian socialism is only another name for nationalism. We don't advocate sudden transformations. We point out the way and endeavor to inspire the people to follow."

He then likened the light of Nationalism to the pillar of cloud and fire that lead the children of Israel out of Egypt. If its followers would but be strong in their faith the sea of difficulty would open to them and the pursuing Pharaos of monopolies would be swallowed up in the sea of public indignation and justice. This is not a new doctrine, he said; it is as old as the Christian era. Christ spoke the basic principle of Nationalism when he said "Love one another." Work for one another is the work of humanity.

Dr. Bowen paid a high tribute to Henry George, whom he called the father of Nationalism. He said he responded heartily to the sentiment of the Nationalist who said, "I would rather be the author of 'Progress and Poverty' than 'Hamlet.'" Shakespeare pictured brilliantly the ills of humanity, but George prescribed for their cure.

The speaker prophesied that the day was not far ahead when this people would be ashamed of an idle man, and abolish completely almshouses and prisons. It will in truth then be a government of the people, by the people, for the people.

For Once the Police Responded.

The cry of "Police" and the rapid running of several people on Washington street, last night attracted a large crowd in the vicinity of Tenth. Police Officer Muller responded, and found that the trouble, as usual, amounted to nothing. It was only caused by two men running to Joe Lancaster's, each one trying to be first to get measured for one of Joe's nobby fall suits.

THE DAYS OF OLD,

The Days of Gold, the Days of Forty-nine.

THE PIONEERS OF ALAMEDA COUNTY

Meet and Exchange Reminiscences—W. T. Gibbs and D. W. C. Gaskill—Major Sherman.

The pioneers of California are slowly fading away. No one knows why, but somehow it seems that they are going all at once. And when the veterans meet and talk over old times it is like a feast—it is rare, sweet and entertaining.

They met last night in the City Council Chambers. There were present less than half a hundred. How many will answer at roll call next year? No one knows. They drop off and are carried to the proverbial bourne—but they are not forgotten. The men who hewed a way over the trackless Sierras, who inaugurated an era of civilization in the "Wild West," will not be forgotten, though they are gone beyond the gates of time.

They met last night and enjoyed themselves by anecdote and story of the olden time. There was speech making and applause, but best of all were the old yarns retold—"The days of old, the days of gold, the days of forty-nine."

Admission Day and every other national holiday is held sacred by the pioneers. They are loyal, they are true. They are Americans who are proud of their native land, and their land is proud of them.

A Pioneer! A hero!

Men are born to greatness, and they are honored with a formal sort of respect. The gratitude of a nation ought to swell the heart of every man or woman who reaps the benefits brought about by these men, who defied the dangers of the wilderness to make habitable the most glorious country on earth.

Last night President Gibbs made a happy speech to his comrades. He reviewed the history of California from its earliest settlement down to the present time. He drew graphic word pictures of '49 and '89, which plainly illustrated the wonderful growth of the country as a State.

D. W. C. Gaskill entertained the company with his conversation, which is never dull. He told them how he helped to plane the boards of the first house in San Francisco; anecdotes of mining experiences, and many other ideas were touched upon. As already stated, Mr. Gaskill is never dull.

After Mr. Gaskill came Major Sherman. He said:

"During the month of July, 1849, when mining with the rest of my company on the Yuba river, directly across from Rose's bar, a small company of men arrived on that bar from the State of Ohio, and among them were three ex-Governors of different States who took up claims side by side, which were known as 'the Governors' claims.' One of these ex-Governors was Joseph E. Shannon of Ohio. A few days after their arrival there came in another company under General Green from Texas, and they brought with them a number of negro slaves, and he with this party went a short distance above and staked out claims for themselves and a claim for each slave they had brought with them and commenced mining. They soon became known and much bitter feeling was engendered, and excitement raised among the miners, who were not disposed to tolerate anything of the kind. Slave owners could not take up preemption claims for their slaves on the public lands of the United States, and the spirit of the preemption laws should not be violated in taking up mining claims. A public meeting of the miners was called at Rose's Bar. It was duly organized with Randolph Peters of the Philadelphia Company as Chairman, and James Reynolds, the partner of Mr. Rose, was appointed Secretary. Everybody there present had a chance to express his opinion, and Governor Shannon of Ohio was the principal speaker. Neither General Green or any of his party were present. At that meeting it was unanimously resolved that no slaves should be allowed to take up, hold or work claims in the names of slave under any direct or implied contracts; that they should have their freedom after having performed labor in the mines. This was the first time that freedom and slavery were ever brought face to face and looked horns in California. General Green, when informed by the committee of the action of the meeting, excitedly declared that he and his party would do as they d—d please, and that if the miners interfered with him or his men they would fight, and make it hot for those who should attempt to carry out the objects of the meeting." Major Sherman had known General Green during the Mexican war, and they were prisoners together, and explained how he was in folly in acting as he did. General Green was granted three days to sell out, pack up and get off with his party and slaves. He left next morning and nothing was heard of him. At the election August 1, 1849, to elect a delegate to the constitutional convention at Monterey, Governor Shannon was unanimously elected, with positive instructions that no slavery of any kind be permitted on the free soil of California. How faithfully he carried out his instructions may be seen recorded in the official reports of the debates in the first constitutional convention, which met at Monterey forty years ago and, unanimously declared that there shall be no slavery or involuntary servitude, excepting for crime, within the limits of the State of California,' the anniversary of which we are also now celebrating."

After the speaking there were refreshments served to the company and the veterans separated with feelings of satisfaction over a successful day. Those who attended the meeting were: Mr. and Mrs. William T. Gibbs, Mr. and Mrs. D. W. C. Gaskill, Mr. and Mrs. de la Montanya and Miss de la Montanya, Mr. and Mrs. E. A. Sherman and E. A. Sherman Jr., Mr. and Mrs. A. A. Williamson, Mr. and Mrs. O. C. Wheeler, Mr. and Mrs. F. S. Low, Mr. and Mrs. de Bell and Miss de Bell, Mr. and Mrs. Erastus Kelsey, Mr. and Mrs. Dresco, Mr. and Mrs. Dr. Halsey, Mrs. and Miss Widber, A. Schuler, James R. Cowell, Newton Sewell, Colonel Joseph Stuart, William H. Peckler, Mr. Fogg, Mrs. E. Badwin, Miss Florence Shreve, Miss Cooper, Chairman F. Schell, A. A. Dexter.

Goat Island.

George W. McNear said to a representative of the *Alta* yesterday: "That spark that lodged on that patch of shingle roof on our granary at Port Costa produced a fire that cost me considerable. England is now in uncertain wheat market. The California product is in competition there with Russian wheat, and there is a hard competition. San Francisco and vicinity and the Puget Sound country are bound to be in a rivalry. San Francisco will always, however, be the great coast metropolis. Goat Island should be devoted to commercial uses. There should be then a tunnel from there to some point near the foot of Market street, San Francisco. All the passenger lines of the Southern Pacific Company should terminate at that point."

BIG GOLD NUGGETS.

The Largest Ever Found Was Worth Nearly $150,000.

Silver Dollar.

In order to correct many misstatements that are going the rounds of the press in regard to the largest nuggets of gold ever found the editor of the *Silver Dollar* desires to publish the following facts, which he obtained while Commissioner to the great Mining Exposition held in Denver Col., in 1882. These facts were obtained from the gentleman having charge of the Australian exhibit, which includes models of all the large nuggets discovered in the great gold field.

The largest piece of gold in the world was taken from Byer & Hallman's gold mining claim, Hill End, New South Wales, May 10, 1872. Its weight was 640 pounds, height 4 feet 9 inches, width 3 feet 2 inches, average thickness, 4 inches, worth $148,000. It was found embedded in a thick wall of blue slate at a depth of 250 feet from the surface. The owners of the mine were living on charity when they found it.

Welcome Stranger nugget was found on Mount Mollagel February 9, 1864, weighed 190 pounds, and was worth $45,600. This nugget was raffled for $46,000, at $5 a chance, and was won by a man driving a baker's cart. It was sold sold to the bank for its true value and melted.

The Welcome nugget was found at Bakery Hill June 9, 1858. It weighed 184 pounds 9 ounces 16 pennyweights, and was worth $44,356; was raffled for $50,000, at $5 a chance, and was won by a small boy in a barber shop.

Lady Hollham nugget—named in honor of the wife of the Governor of New South Wales—was found in Canadian Gully September 8, 1851, weighed 98 pounds, 10 ounces, 2 pennyweights, and was sold for $22,-557.

Uncle Jack nugget found at Buninggorg February 27, 1857, weighed 93 pounds, 5 ounces, and was sold for $5620. It was found by a runaway sailor, who sold it for the sum named and spent the money in just four weeks.

No name nugget, found at Eureka, Daulton's flat, February 7, 1874, 50 feet below the surface, weighed 52 pounds 1 ounce, and was sold for $12,-500.

The Leg of Mutton nugget was found at Ballarat, January 31, 1853, at a depth of 65 feet, weighed 134 pounds 11 ounces, and was sold to the bank for $37,280. This nugget was shaped like a leg of mutton, hence its name.

No name nugget, found at Bakery hill, Ballarat, March 5, 1855, near the surface, weighed 47 pounds 7 ounces, and was sold for $11,120.

No name nugget, found in a Canadian gully, Ballarat, Jan. 22, 1858, at a depth of 25 feet, weighed 84 pounds 9 ounces 15 pennyweights, and was sold for $20,255.

The Kohinoor nugget, found at Ballarat July 27, 1860, at a depth of 160 feet from the surface, weighed 80 pounds, and was sold for $10,680.

Sir Dominic Daly nugget, found Feb. 27, 1862, weighed 26 pounds, and sold for $6240.

No-name nugget, found at Ballarat, February 28, 1855, only sixteen feet below the surface. The discovery was made by a small boy. The nugget weighed 30 pounds and 2 pennyweights, and sold for $7365.

No-name nugget found at Weaverville, August 1, 1869, weighed 12 pounds, worth $2280.

No-name nugget, found at Ballarat, February 3, 1853, just twelve feet below the surface, weighed 30 pounds and sold for $7360.

No-name nugget, found in Canadian Gully, January 20, 1853, at eighteen feet below the surface, weighed 93 pounds, 7 ounces and 1 pennyweights, and sold for $22,350.

No-name nugget, found at Bakery Hill, March 6, 1855, weighed forty pounds, and was worth $9600.

Nil Desperandum nugget, found at Black Hills, November 20, 1859, weighed forty-five pounds, and sold for $10,800. Oates & Delson nugget, found at Donnelly gold field in 1880, at the roots of a tree, weighed 180 pounds and sold for $50,000.

In addition to the above were the Heron nugget, worth $20,000, and the Empress nugget worth $27,561.

Gold in the drift deposits has been found in larger masses in Australia than in any other country. Many large nuggets were found in California during the era of placer mining, but we have no record of any to compare with those we have described in Australia.

It Won't Bake Bread.—In other words, Hood's Sarsaparilla will not do impossibilities. Its proprietors tell plainly what it has done, submit proofs from sources of unquestioned reliability, and ask you frankly if you are suffering from any disease or affection caused or promoted by impure blood or low state of the system, to try Hood's Sarsaparilla. The experience of others is sufficient assurance that you will not be disappointed in the result.

ALL COLONELS.

What They Said and Did at the Baseball Game.

THE MAN WITH THE HORN GETS SICK

A Great Day and a Great Game at the Haight Street Park—The Colonels Are Still the Leaders.

The combination against the Colonels is wearing mourning this morning. Manager Michael Finn weeps every time he calls to mind the score of 20 to 6. The Colonels are jubilant and Colonel Tom meets his friends with the familiar remark, "I told you so." Everyone of the 10,000 people at the Haight street park yesterday was either a Colonel or a 'Frisco. Bitter partisanship prevailed. The man with the tin horn was present in all his glory but the sporting editor who writes "the score is as follows," was conspicuously absent.

"Bang, bang, bang," went the gong and the Colonels, losing the toss, stepped up to the bat and went out in one, two, three order.

"Aha," says the 'Frisco, "we have 'em."

"Toot, toot, toot" went the fish horns, but the Colonels were still happy.

"Bang, zip" went the ball and Colonel O'Neill made a magnificent error. Two runs for the 'Frisco were scored.

"Toot, toot, toot," again went the horns. Oakland stock was falling fast as o'er the muddy diamond the leather did pass.

"We are the people," shouted O'Neil from the coaching line. Ringer Dan the Mascot, waved his hands mysteriously over the home plate. The tide had turned. "Zip" went the leather as it took wings and sailed over the green field. "Zip" again went the sphere as it skated over the diamond and dodged the 'Frisco "stonewall." Infield. Four runs were netted to the Oaklands. The fishhorns did not go "toot, toot, toot."

Wehrle twirled his blonde mustache, winked at Stallings, soaked the sphere around the home plate and completely razzle-dazzled the boys who would bat if they could. No runs scored for the 'Frisces.

Colonel Tom surveyed the scene from afar and an angelic smile graced the only manager's countenance.

Colonel S. G. S. Dunbar during the intense excitement fell over a bis seat and School Director Colonel Walcott threw his hat into the air. Colonel W. E. Greene got so excited when Colonel Stallings laced out a three-bagger that it was feared he might chase him around the diamond. Colonel Fred E. Whitney looked wise as he saw the sphere sailing here, there and everywhere and reverently remarked "when I was in Japan I saw a game ——" and a foul tip ruthlessly knocked off his derby. But Colonel J. J. White was the shouter. He understands what a base hit means, and can translate a, b, a, b, a, and e, just as well as Anson or Michael Kelly. And how he did shout. Why the very hills shook at his call, and the sea seemed to roar when the crank of cranks raised his mighty voice over the noise of the multitude. But this did not worry Colonel Al Havens, the man who represents the great Chicago team in Oakland. Calmly, quietly and serenely he passed judgment upon the players, only losing his self possession once during the contest, when he came near throwing his silk tile in his effort to make "Old Hoss" Dalrymple reach the home plate on a hit, and Colonel Charley Tuttle criticised the game from a scientific standpoint, and explained to his family the intricacies of the great sport.

Colonel J. A. McDonough said not a word, but placed his money on the Pets and returned home happy.

Colonel Senator Edmonds bowled until he was hoarse, and was one of the many "I told you so" men.

It was a great day for the Colonels and the score was 20 to 6.

QUEEN VICTORIA'S UNCLE.

How Jenny Lind Once Squelched Him at a Public Performance.

Here is a good story of the Queen's uncle, the late Duke of Cambridge. It is related by the London *Star*: The Duke had very little taste for music, and had a box at the opera simply because it was the fashion. A great man was he for presiding at public dinners, at which he would eat as much as five and drink as much as ten ordinary people. Leaving the table, full of beef, and flushed, but scarcely flurried by an enormous quantity of wine, this royal Duke—uncle of Queen Victoria—would drive to the opera, probably arriving during the last scene, and, wholly regardless of the performers, would call out to his friends across the house, "Ah, Devonshire, glad to see you," or "Cardigan, I shall breakfast with you tomorrow," and so on. Being a "royal highness" he was actually tolerated.

One night when Jenny Lind was performing the role of "Amina" in *La Sonnambula*, the old, portly duke went on in this manner. Disturbed by his talk, the vocalist suddenly paused, and the queen, who was present, stretched a little out of her box to ascertain the cause. Jenny Lind simply looked at the duke's box, and the queen, following her look, saw the culprit, who was speaking loudly to some person in a neighboring box. The eyes of all the audience were directed at once to the Duke of Cambridge, who certainly then became fully aware that he was "spotted" by several hundred persons.

He continued talking, however, as if to brave it out. A gentleman in the pit jumped upon his seat, and in a loud voice and earnest manner cried out: "Who disturbs the audience? Who but that old man with a star upon his breast? Do we pay him £40,000 a year to annoy the public in the opera house? Three groans for the Duke of Cambridge!" The call was unanimously complied with, every eye being fixed on the portly Prince, and at last he sneaked out of his box, followed by his wife and daughter, and not until then did Jenny Lind resume her singing. It was said that the Queen was greatly annoyed at her uncle's rudeness, and told him so. It is certain that ever after he avoided going to the opera, and behaved very well when compelled to go.

Wasted Argument.

Philadelphia Inquirer.

A lightning rod agent spent several hours in endeavoring to persuade Alfred Elliott of Malvern to have rods placed on his farm buildings, but he was unsuccessful. Two hours after he had gone one of the buildings was struck. The agent heard the news and returned, but the farmer was still immovable.

"No," said he, "lightning never strikes twice in the same place."

ON OAKLAND HEIGHTS.

Joaquin Miller Describes His Suburban Home.

Chicago Tribune.

A slender, sparsely built man, well along in years, with long, yellowish white hair that lay on his shoulders in curls, sat for a long time yesterday afternoon in front of the Leland Hotel. He was dressed in black, moderately well worn and not of the latest cut. At his throat a loose white neck scarf was negligently caught over a diamond collar button. On one of his fingers glistened a large, brilliant yellow diamond that was in strange contrast to the seamed and tanned hand. In speaking of his home in California, he said: "It is a terrestrial paradise. I shall live there until I die. You know I went there by almost an accident, but it has brought me satisfaction and even fortune for I am a rich man at last. Three years ago, when I went out to California with Colonel Howard and Mr. Sutro, we arranged to plant a little island off San Diego with trees. We had hardly done so when fire killed them. Then I went to San Francisco and bought my little tract of ground in the mountains. It is two miles from Oakland, and 750 feet above the ocean. For 200 acres I paid from $50 to $75 per acre, and now they want to buy it for town lots. I am really rich, but I have worked hard," and the Western poet glanced at his hardened hands. "It is my philosophy. It is the foundation of my latest and longest work, 'The Life of Christ.' He breaks least commandments who lives by the sweat of his brow. In three years I have planted 15,000 trees. I thought it would take me only a short time, but I am still at it, and I and my mother shall always live among them."

A SUCCESSFUL COMPANY.

A Record Unequaled in the History of Express Companies.

Two years ago there was a little four wagon express company started and called the "People's Express Company." From the first success stared the company in the face, and owing to the prompt and careful attention to business and being in the hands of good managers it is today the most extensive and best conducted company on the coast, and its patrons have placed the stamp of their approval upon the above statement. It runs the largest and most costly wagons that cross the bay, manufactured expressly for it, and unparalleled in structure, some being especially built to carry furniture and pianos while others are for heavy freight, safes, etc. This company's baggage system is beyond the possibility of questioning, the most reliable and prompt medium of transportation. It checks baggage at hotels or residences to all parts of the United States. Office 123 Tenth street. Telephone 326.

Drop in to George's Exchange, 477 Eighth street, for fresh beer on tap, choice wines, liquors and cigars, and weiss beer.

A Successful Piano Firm.

F. R. Girard, 1159 Broadway, between Thirteenth and Fourteenth streets, has enlarged his music business to such an extent that he was compelled to occupy the whole of the large store on Broadway, near Fourteenth street. No doubt this is the largest and finest piano room in Oakland. Mr. Girard has the good fortune of being the sole Pacific coast agent for the celebrated Wheelock Pianos, which instruments are now acknowledged by the best musicians to be first class in every respect. Through honorable and fair dealings Mr. Girard has made hosts of friends who all take pleasure in recommending his pianos. The large capital employed enables him to buy for cash, and can sell on easy monthly installments. Any one who will visit this establishment will find that they can buy a piano or organ for less money than the same grade of pianos are sold for in San Francisco. Mr. Girard also will keep a large stock of musical merchandise, which he imports direct. Pianos rented from $3 to $5 per month. All popular music sold for 10 cents a piece. Catalogues sent free. Before you buy a piano or organ you will find it to your advantage to call at F. R. Girard's, 1159 Broadway, near Fourteenth street.

(Or the Liquor Habit), Positively Cured by administering Dr. Haines' Golden Specific.
It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Gold in a Specific in their coffee without their knowledge, and today believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific it becomes an utter impossibility for the liquor appetite to exist. 48 Page Book of particulars free. P. J. THAT LEAFLET

Written by Mrs. Millicent K. Blake.

"IN UNION THERE IS STRENGTH."

Is there Disunion in the Rank of the Woman's Christian Temperance Union?

The following is the full text of the leaflet written by Mrs. M. K. Blake concerning which a resolution disavowing responsibility was passed at the meeting of the Woman's Christian Temperance Union last night. Mrs. Blake accepts full responsibility for the document.

IN UNION THERE IS STRENGTH.

AN APPEAL TO THE MEMBERS OF THE WOMAN'S CHRISTIAN TEMPERANCE UNION.

It is to be hoped that at the next National Convention of the Woman's Christian Temperance Union the Association will come together and be united heart and hand, and let no political issue separate the well-organized society. It can be no longer a union when there is such a wide difference in the views and sentiment of the members in regard to making the organization political. History and observation show that there is corruption in all political parties. Colonel Woodford said while here that in time the Third party might become corrupt. It is not wise for the Woman's Christian Temperance Union to trust itself to politics, for human nature is weak, and "to err is human." We do not desire to have our Union connect itself with any party to become in time corrupt and useless. I think it is best for us to be firm in our original ideas, and keep out of politics, and I believe this would be the opinion of a large majority of our Unions if they would sit down and carefully and sensibly consider the matter and let judgment decide instead of imagination, and look at things in a more practical light. Were it for nothing more than to preserve our glorious Union we should adhere to its first noble position. It is heartrending to many who have been early in the work and borne the burden and heat of the day, and have put in their time and money for our blessed Woman's Christian Temperance Union for the past fifteen years, to see the rupture that has been made in it.

This division has been made on the partisan side, where they gave no opportunity to the non-partisans to discuss the indorsing of politics or the unions, neither were the partisans willing to have the non-partisans represent the union by voting either, notwithstanding they were just as earnest in the work as the partisans, and worked prayerfully and in Christ's spirit; but because they could not see or believe that it was best for the Woman's Christian Temperance Union to ally itself with politics, it was thus restricted. Does this show a Christian spirit? We do not intend to return anything but good for all this, we only hope that the National will reconsider the matter, and go on as before; then the past will be blotted out and forgotten. The non-partisans are just as much in favor of prohibition as the partisans, they only differ in the manner of their work. They desire to do what they see can be accomplished now; they wish to abolish the saloon now which they can accomplish through local option laws; they desire now to save the sixty thousand souls, and not wait a half century to gain prohibition through a national political party. Let us look at the matter just as it is, and be wise for ourselves. I think now is the time for solemnity in our work. Wherever religion and politic have been united, religion has been crushed and vital piety destroyed. Now mingle politics and temperance together, and the purity of temperance principles will be lost in the slums of politics. Let us be a firm, united band, for union is strength. I well remember some years since how bright it looked for the temperance cause, and we held State Temperance Conventions in San Francisco, when were largely attended much interest was taken, and the outlook for success was very encouraging. But the convention became divided, some advocated running a Prohibition President. A Prohibition President was run; this weakened the power of the temperance people and set back the work. Now, again, the temperance party is divided, and who is to judge which is right; we can judge as we see results.

How do we know but that the Third party may become divided before a Prohibition President can be elected, and thus prevent his election. It has been my experience in California, that whenever the temperance people were ready to accomplish something for the cause, they divided and became weakened. I have no doubt had we remained united, we might have gained prohibition long ere this. A prominent Good Templar was asked why that organization did not ally itself with the Third party. He replied that such a course would be otherwise; that the Good Templars' work was to educate the people in temperance sentiment, is not the Woman's Christian Temperance Union for the same object? If so, is it not as inappropriate for us as a Christian organization to identify ourselves with any political party as it would be for any church to identify itself with politics as a church organization? I have been through one temperance campaign in California, and I have had sufficient experience to know that we must be united in order to be successful in our work. What would we think of the Young Men Christian Association entering politics? Now let us be willing to be known as simply the Woman's Christian Temperance Union, and abide by our first noble position, under which we have been so well prospered. I never knew an organized society before that was unwilling to give all the members a hearing on all subjects, or allow discussions on all resolutions brought before the Union to be voted upon. We must commence at the bottom of the ladder and not at the top; a little leaven commenced in Oakland, or any other place, will spread, and after while the whole will become leavened.

The non-partisans could not have a hearing in the State or National Convention in regard to the Union's indorsing politics. Was that just? The non-partisans have grieved over the matter, but they have shown a Christian spirit by working on as efficient and have paid in their money just the same as if nothing had happened to blight our beautiful work. Can the Union expect the non-partisans throughout the United States to go along under such a dismission? It can possibly be a Christian Union under such feelings; it may bear the name, but it is not a union in spirit and sentiment. God will care for the work if we stand for the right as he gives us to see it. God is a God of justice. He teaches us to be kind and charitable, above all things to have charity, and live peaceably with all. We draw lessons from the harmony of his works, that if we work in harmony with each other our labors will be crowned with success. I do not think we can ever get prohibition through any political party; it must be done by the people, by all parties. We have a law now which will give us local option if we desire it, and work for it, and it may result in prohibition.

I think we have commenced working the right way in Oakland to be successful by organizing Anti-Saloon Alliance, and we shall give our work and money to carry it on. We shall do one thing at a time, and our first object will be to remove the saloons. After that is done, other work of reform will follow, and we expect to remove all the saloons from our city in the near future. After that work is accomplished, Oakland will become like a city set on a hill that cannot be hid, and it will be an example for others to follow. All the towns in the county will doubtless follow the example, and other counties may take pattern until the scourge is removed from our State, and other States may follow on in the good work until there may be no more saloons to tempt our young men or young women to take the intoxicating cup. In this way we may get prohibition before we know it; this is the way they have worked in other places where they have been successful. If we work rightly and in the right spirit, free from bitterness and prejudices, the Lord will work with us and for us, for he is a God of purity and love, and he will certainly work to purify if we desire it and work for his glory and not for our own. I felt so deeply in the interest of the unions that when I was appointed as a delegate to go to the State Convention last October I did not decline, for I thought possibly I might say some convincing things to prevent the Union indorsing politics.

I felt so earnestly in the matter that I could have traveled all over the State to plead with the Union to beware of taking any course to lose any of its power, influence or respect. I could see what a power the Woman's Christian Temperance Union could become in the world, and what untold good it could do to humanity, should it continue to move on harmoniously, and not do anything to retard its progress or break the union. As the convention did not wish me to express my views there it has necessitated me to express them in this manner, which is intended only for good. I will again say, Let us adhere to our first noble position. It remains now for the partisans to decide whether we go on united as formerly or become a broken band. In order to obtain a national prohibition the Constitution of the United States must be changed, and that cannot be done unless three-fourths of the States are in favor of it. Reform must commence first in the States, and this must be done by local option or constitutional prohibition.

the work I did in removing the trees and bushes and now give me nothing but the lower grades of fish?"

To which the brook replied: "It is just on that account. When you removed the cool shelter of trees and bushes the trout left me and sought places where the water is cooler, and there they bide."

There is no short road to plenty of trout, and the beautiful things of this life are attained only with constant difficulty.

SOL GREENHOOD'S CREDITORS.

They Cause a Citation to be Issued to Bring Him Into Court.

A short time since the creditors of Sol Greenhood the dry goods merchant filed a petition in the Superior Court asking Judge Gibson to cause a citation to be issued and bring him into court in order that he may be examined as to his property. The order was made, and this morning was the time set for Mr. Greenhood to show cause. No one appeared in the case, however, and it is understood that the creditors have been satisfied. The hearing was continued for one week, at which time it is expected that the proceeding will be dismissed. The creditors who asked for the citation are: Levi Strauss & Co., $777 30; Neuberger, Reiss & Co., $390 89; Kraker & Israel, $97 01; Bachman Brothers, $108 96; D. N. & E. Walter & Co., $108 96; B. Blumenthal & Co., $77 50.

FAT JACK DIVORCED.

His Wife is Tired of Being Tied to a Felon.

Judge Ellsworth this morning granted Elizabeth Kieley a divorce from James Kieley on the ground that he has been convicted of a felony. The plaintiff was awarded the custody of the minor children. The defendant is better known in police circles as Fat Jack. About two years ago he brutally assaulted an Oakland woman in San Francisco, and a short time after she died from the effects of the ill treatment she had received. For this offense Kieley was sentenced to serve a term of forty years in the San Quentin prison. His wife feared that he may receive a pardon and return and annoy her, and that is why she desired a legal separation. Mrs. Kieley is compelled to labor in order to earn a livelihood for herself and children.

Wine Worth Its Weight in Gold.

London Truth.

The best "recovery" that I ever heard of was that of the famous pipe of Madeira, of which the remnant, amounting to forty-four bottles, was sold in 1858, at the Duchess of Ragusal's sale, to the late Baron James Rothschild, literally and truly for its weight in gold. This "pipe" was on board an East Indiaman which was wrecked off Flushing in 1778, and it lay at the bottom of the sea until 1814, when it was fished up, and Louis XVIII purchased the whole of it, except six dozen bottles, which the French Consul at Antwerp managed to detain, and he sold all he got to the Duke of Ragusa.
